Chicago Dispatch: In the public de-bates of a certain peculiar central Afri-can tribe the gebaters are allowed to speak only as long as they can stand on one ieg. No legislator could ever "get there with both feet" under such re-strictions.

Omaha World Herald: It is safe to predict that congress will not reform the currency along all the lines Inid down by the organs of the administration. There are some few things which even a Republican congress cannot do. A Republican congress can insure bountful crops at home and a familie abroad, but it cannot make two solid bedies occupy the same space at the same time.

New York Commercial Advertiser: The Canadians refuse to stop pelagic scaling pending exceavor to reach an agreement for protection of the seal herd. If this refusal is approved by Great Britain the United States can make no more effective answer than to order immediate destruction of the whole seal herd at the Pribyloff islands.

Louisville Courier-Journal: France opposes the authorization by the United States of a British cable connecting Canada and Hawaii, on the ground that it would place England in control of a telegraph system reaching around the world. Bet, we can assure France, the United States will not object if France shall choose to construct for herself a telegraph system around the world.

Boston Journal: There are intimations from Berlin that Germany is so interested in the spollation of China that she will auspend the bullying of little Hayfi. There is no Monroe doctrine that stands in the way of the acquisition of Kaio Chau.

Atchison Globe; Americans are now putting up canned peas that are as good as the genuine French article. This may seem a small item, but it is really quite important: it is an indication that Americans are becoming more clever. For years all canned peas that wor? it to cat were imported from France. Now the Americans are ceualing the French in canning peas. The Americans are getting rid of a iot of fool notions, and getting down to work.
